

PROGRESS OF WAR

Sampson Communicates with the Navy Department

HIS OFFICIAL BULLETIN

Hobson Will Undoubtedly Be Made a Lieutenant Commander and Will Receive the Thanks of Congress for Courageous Exploit.

(By Telegraph.)

WASHINGTON, June 11.—The Navy Department has received communication today with Admiral Sampson off Santiago by cable and by mail, with the result that it is now known officially that the American fleet off Cuba, and the American gunboats off the United States coast, have been ordered to remain in the Gulf of Mexico.

Regarding the fleet of transports no statement is obtainable at the War Department, and it is believed that the situation is as it stood yesterday with respect to the expedition. A subject for an official bulletin today at the Navy Department was Hobson's glorious feat in bottling up the Spanish squadron with the hull of the battleship, and the commendation of Admiral Sampson withheld no credit from Hobson for either the execution of the operation or the successful scheme to which the constructor was entitled, and he has cleared away at once the small cloud of dissatisfaction that has shown itself among a few of the officers of the fleet. A section of a staff officer in the person of Hobson to conduct the desperate enterprise.

Reference was made in Sampson's statement to the "inspiring letter" of Secretary Long for the request for Hobson's promotion. With the consent of Secretary Long the particular passage in the letter to which Admiral Sampson referred is now made public.

"Each man engaged in the work of the inshore squadron should have in him the stuff out of which to make a hero," said Cushing in his letter of recognition, given him shall be as great as that given to Cushing, so far as the department can bring this about. (Signed.) "JOHN D. LONG, Secretary."

Hobson has won and if he escapes from his present thrallhold the Navy Department will redeem its promise, and the commendation of the War Department shows that the recognition accorded Cushing was his advancement one full grade, that is from the rank of lieutenant, which he held when he took his little boat up to the Albatross, to the rank of lieutenant commander. In addition, he was given a vote of thanks by Congress. If Hobson is rewarded in the same measure, he will be known in his corps, be raised to the rank of lieutenant commander at least, and made a full constructor instead of the assistant constructor, which he now is.

THE NEWS OF MADRID.

Present Spanish Cabinet May Soon Crumble Away. (Correspondence of Associated Press.) MADRID, May 31.—Careful watch is kept over the movements of ministers by newspaper men in the hope of gleaming some grains of information therefrom. The late arrival of the late Senator Aunon caused quite a flutter by calling together, late at night, on Senator Sagasta. The two men were carefully stalked on leaving the premier's office, when they took their little boat with him for half an hour, but the only information that they gave was that their mission had been one of mercy, they having called to secure the good offices of the premier to obtain the Queen's pardon for a murderer who is to be executed in Cadiz tomorrow. It is said their efforts have been unavailing, as this is the second time the culprit has been condemned to death. The greatest horror and distress reigned at Madrid at the idea of an execution taking place there. The local carpenters refused to put up the scaffold, and men had to be brought into the town to perform that loathsome job.

So far Senator Sagasta has succeeded in staying off any further crisis. Senator Ganazo patriotically declining to make mischief by urging his financial views in opposition to those of the minister of finance, Senator Puigcerver, but there is a strong feeling that the present cabinet will crumble away at the first bad news received. Everything points to Senator Silveira as the coming man, though a military cabinet may be necessary first to cope with the elements of disorder which are sure to break out. Catalonia is near starvation.

The Madrid papers continue to profess ignorance of the actual position of Admiral Cervera's squadron. It has been said that he has been able to keep the peace between his ministers of public works and finance, thus bearing out what he said in the interview sent out several days ago. The silver question is likely to give a further shake. Sagasta's cabinet has not been broken out in the province of Murcia and by all accounts they must soon occur on a large scale in Catalonia; everything points to a disturbed state of affairs in that district, and the only government that can keep even the semblance of law and order here will be a military dictatorship.

The Puerto Rico delegates have had a meeting to call attention to the fact that the promised autonomy has not been in force in that island and steps will be taken to press on the government the fulfillment of its promises to an island which has always been remarkable for its fidelity to Spain.

The number of poor daily fed at the Santa Cristina asylum, Senor Aguilera's pet institution, now reaches eight thousand.

WAR REVENUE BILL.

It Has Not Been Signed by the President.

(By Telegraph.)

WASHINGTON, June 11.—The War Revenue bill will not become law until next Monday. Owing to a rule adopted in both houses that the president's signature shall not be given until the bill has been passed by the House, the bill still lacks the signatures necessary before the President affixes his approval. While the House was in session today the Senate was not in session, though thought best to attend to the details of the bill. Accordingly when the two houses meet next Monday the bill will be promptly pushed through the signatures of Vice President Hobart and Speaker Reed, and the necessary enrollment details and sent immediately to the President.

THREE SHIPS CHARTERED.

(By Telegraph.)

WASHINGTON, June 11.—The War Department finally closed the charter today for the steamships, Victoria, Olympia and Arizona which are to be used in the transportation of troops to Manila. The chartering of these ships has been delayed for some time.

ADMIRAL CAMARA'S FLEET.

Many Spanish Newspapers Want It Kept at Home.

(By Telegraph.)

MADRID, June 11.—5 P. M.—In the chamber of deputies today the government was interrogated as to whether the United States had notified the powers of the blockade of Cuba, and whether the powers recognized the blockade as effective.

Duke Almodovar de Rio, the foreign minister, replied that since the Paris conference conditions had radically changed, and the powers had not yet decided whether the blockade is effective. The government, he said, was resolved to uphold Spain's rights and he added that he did not believe it was legitimate for the United States to encourage the Philippine insurgents as a belligerent power.

Many of the newspapers advocate shipping at home of Admiral Camara's fleet, for the purpose of defending the coast. Captain Aunon, the minister of marine, has made arrangements with the Spanish Trans-Atlantic Steamship Company for the transportation of munitions and supplies to the Antilles.

BERLIN CABLE LETTER.

Feeling in Germany as to the Spanish-American War.

(Copyright, 1898, by Associated Press.) BERLIN, June 11.—There is no material change in the feeling in Germany in regard to the war between Spain and the United States. The government scrupulously avoids expressing its views on the subject and is fearful of the German newspapers, particularly in their attitude of aloofness and open hostility toward the United States. Throughout the week they have vehemently maintained that the accuracy of the German newspaper reports is "another defeat of the Yankees," and have gleefully printed the living Madrid dispatches supporting this contention.

These newspapers also continue to charge the Americans with cowardice for "not attacking the Spaniards," whom, until recently, the Americans regarded as foes unworthy of their steel.

A member of the German staff here, in an interview with the correspondent of the Associated Press, said: "The European mold to suppress a sentiment akin to contempt when reading the accounts of what has thus far been done, or, rather, left undone, by the American army against the Spanish troops in Cuba."

"With no Spanish fleet to worry them, money and transportation in abundance, the American troops, under their command, have been unable thus far to even effect a landing of troops. This fact speaks for itself. And, after the enormous boasting of the American press, the fact that they systematically belittled the Spaniards for months before the outbreak of the war, this inglorious failure is doubly conspicuous, and it striking proof of the lack of military preparation of the American army against the Spanish troops in Cuba."

The attempts of Spain to secure European intervention continue, in spite of the little encouragement held out by the United States. The foreign office is cognizant of the negotiations, but attaches no importance to them.

The feasibility and probability of an Anglo-American alliance, or understanding is attracting widespread attention in the German press, though the idea is universally scoffed at as impracticable. The papers here profess not to believe in the possibility of such an entente, and point out an array of alleged facts showing by which the interests of the two nations cannot travel parallel lines, declaring that (Globe's) analysis of the German situation is four engendered by her present isolation.

The Cologne Gazette recognizes the idea and claims that it is an idea of considerable importance. Britain would have all the advantages and America all the disadvantages. The government proposes to ask the new Reichstag to vote on the possibility of such an organization of the army and, additions to the field artillery, including the creation of mortar batteries, and the addition of a corps of mounted infantry to every division, and the increase of the pioneer regiments by a battalion each, and the formation of three new army corps.

The fact that the United States government is not participating in the Brussels sugar conference is regarded unfavorably here.

Fifty persons have been made sick by the cholera epidemic in the neighborhood of Zwickau, Saxony, and it is asserted that American pork was responsible for it. But, when proof of this assertion was invited it was not produced.

NO DIRECT NEWS FROM CUBA.

Rumor Again Current that Santiago Has Fallen.

(By Telegraph.)

CAPE HAITIEN, June 11.—11:15 A. M.—There is no direct news from Cuba this morning, although the rumor is again current that Santiago de Cuba has fallen.

Mr. M.—Information has been received here, by way of Port au Prince, that a large force of Americans landed yesterday on the shores of Guantanamo Bay, near La Cabañera, and it is understood the cable terminus at Cape Haitien is in the hands of the Americans and that every effort will be made at once to reopen communication with New York via Cape Haitien. A force of cable repairers may be sent from Cape Haitien as soon as a steamer can be sent here to take them over.

THE MONTEPEY OFF.

(By Telegraph.)

SAN DIEGO, June 11.—The work of loading the steamer with a load of coal was completed at 10 o'clock this morning, and at 12:45 the vessel got under way. She was joined outside the bay by the collier, Joinville, and the two vessels steamed rapidly to the westward on their way to the Philippines. It is expected that they will touch at Honolulu in about ten days.

SALMON ON THE BILL.

(By Telegraph.)

WASHINGTON, June 11.—The President has authorized canned salmon to be added as one of the meat components of the army ration. Ordinarily fresh beef will be issued to the troops in ten equal portions, three of which are to be eaten in the field and ten in the barracks. Commanding officers are authorized, however, to vary these proportions of the ration according to the necessities of the service in which the troops may be engaged.

EPISCOPAL COUNCIL.

Appeal From the Secretary of the Virginia Bible Society.

(By Telegraph.)

STAUNTON, VA., June 11.—The council of the Episcopal Church, Southern District of Virginia, adjourned tonight. Rev. W. R. Campbell, of Richmond, secretary of the Virginia Bible Society, made an appeal for funds to supply Bibles to jails, almshouses and the needy. The council voted to supply Bibles to the jails, and the council to be established at Fredericksburg. Collections for diocesan missions reported to be \$5,754. The council refused to give its consent to the proposed change in the name of the church to "The Catholic Church."

RIGID QUARANTINE.

No Sign of a Panic in the Yellow Fever District.

(By Telegraph.)

JACKSON, MISS., June 11.—The town of McHenry is quarantined in the most rigid manner. A gentleman and his wife attempted to leave the town last night. Dr. Haralson, the state health officer in charge, immediately disinfected himself, changed his clothing and went in pursuit and brought the refugees back. There are no signs of a panic, and the greatest confidence is expressed in the ability of the state board to confine the fever to McHenry.

WASHINGTON, June 11.—Reports received today from Surgeon General W. H. Cresson, and other emergency measures are being resorted to by representatives of the marine hospital service at McHenry to stamp out yellow fever at that place and to prevent its spread. Murray reports that a guard of twenty-two men has been placed around the town and Surgeon Carter states that a house to be used for the purpose of isolating the fever is being conducted on the line of the Gulf Coast and the Railroad Company in order to make sure that there are no cases outside of McHenry. No outside cases have been reported.

MERRITT WANTS MORE TROOPS.

It Is Said He Has Demanded 20,000 Men.

(By Telegraph.)

SAN FRANCISCO, June 11.—Major General Merritt wants more troops. He is now in communication with Washington on the subject and hopes to receive word within a few hours that additional forces have been granted him. General Merritt contemplates leaving San Francisco for Manila tomorrow, and he has already ordered his expeditionary forces shall precede him to the Philippines. With the troops that arrived yesterday and today he has a force of 10,000 men. He said that during the past forty-eight hours the governor general has been in constant communication with the War Department and has finally demanded that the full quota of 20,000 specified by him be fitted.

The steamer Centennial, which was rejected by the government, will be respected, as her owners insist that she is a merchant vessel, despite statements to the contrary.

The Senator and Morgan City are being fitted up for the troops and both these vessels will be ready by the end of next week.

The third fleet will probably comprise the Senator, the Morgan City, the Ohio and the Centennial. If the latter are accepted, the American expeditionary force will be complete. The work of organizing the engineer and signal corps for Manila is proceeding slowly, as not enough men can be found.

Mr. J. F. Bell, engineer officer on General Merritt's staff, and chief of the bureau of information of the Philippine expedition, this morning received orders to leave for Manila on Tuesday. He will deliver the full quota of 20,000 men and will be accompanied by a large corps of staff officers.

AMERICAN SOLDIERS.

How They are Regarded by English War Correspondents.

(Correspondence of Associated Press.)

LONDON, June 11.—Some interesting impressions and criticisms of the American soldiers have appeared this week from the pens of English war correspondents with the army of occupation in Cuba. The opinions are, on the whole, favorable, and the correspondents of the Times, who was on board the Gussie, seems particularly impressed with the workmanlike "kit" and businesslike intelligence of the American regulars.

As to discipline, the correspondent writes: "The firing discipline during the three weeks we have been under fire has been excellent, the obedience of soldiers to their officers has been as prompt and as intelligent as anything I have ever seen in Europe, and as to the conduct of the campaign, the aim what I have seen is most satisfactory. The men evidently regard their officers as saviors of equal courage and superior technical knowledge."

As to the equipment, the correspondent means what to the soldier of Prussia is conveyed by noble rank. In my intimate intercourse with the officers and the men of this ship, I cannot recall an instance of a soldier who is not a private otherwise than is usual when a gentleman issues an order. I have never heard an officer or non-commissioned officer of a single instance of the engagement of Cuban soldiers. During the engagement of Cuban soldiers, the orders were issued as quietly as at any other time, and the men went about their work as steadily as bluejackets on a man-of-war.

The Times is very severe on the dress uniform of the American army, which, it declares, was designed by the politicians and tailors of Washington. It says:

"For dress occasions the American uniform is far and away the ugliest and most useless of the uniforms I know. The helmets and cocked hats are the ugliest of the kind, the breeches managers, the decorations tawdry, the swords absurd, the whole appearance indicative of a taste unimpaired by a tasteless military and indistinct. On the battlefield, however, the American soldier is a potent force, and the Washington dress regulations are ruthlessly disregarded."

TERRIFIC EXPLOSION.

(By Telegraph.)

WILKESBARRE, PA., June 11.—No. 5 mine of the Lehigh and Wilkesbarre Coal Company, at South Wilkesbarre, Pa., exploded today, killing seven men and badly injuring 11. It is not known what caused the accident, but it is supposed that a heavy fall of rock shut up the mine shaft, and the gas, which had accumulated and the light carried by one of the miners, coming in contact with the gas caused the explosion. Four men are in a precarious condition.

FRANK MARTIN HANGED.

(By Telegraph.)

WHARTON, TEX., June 11.—Frank Martin (white) was hanged yesterday morning at Wharton, Texas, for the murder of Crocker family. The rope cut deep into Martin's neck, causing blood to spurt in a torrent from the gash. A large crowd witnessed the execution.

MARRIAGE CUSTOMS.

Such as Throwing Rice, Relics of Primitive Times.

Until the middle of the sixteenth century Christian marriage consisted of two distinct ceremonies—the betrothal or espousals, which were followed at a date in ten to twelve months thereafter, by the wedding. The betrothal, extending to two years, by the benediction or complete marriage. Many modern marriage customs are relics of primitive times. For instance, the throwing of old shoes after the newly married pair is a relic of the custom by capture, when the bride's relations threw stones and other missiles after her bridegroom as he rode off with his captured bride. The honeymoon is a relic of the enforced seclusion in which a captured bride and her captor lived after the bridegroom had secured his wife; and the traditional hatred of mothers-in-law is merely a survival of the old feud between the bridegroom and the bride's family. Polygamy was an old custom, and the marriage by capture. They were originally the bride's bodyguard when she was pursued by her bridegroom and his friends. Then later they used to be attached to the bride's person, and were used to do with the bridegroom. Because their office was reduced to a sinecure, they were armed with lances, and carried lighted torches for these captures were generally attempted at night.

The man who boasts that he has no vices frequently overlooks lying.—Chicago Record.

THE HAWAIIAN DEBATE

Six Speeches Delivered in the House.

MR. CLARK'S PREDICTION

The Missouri Member Tells What Will Be the Result of an Enlarged Colonization Policy.

(By Telegraph.)

WASHINGTON, June 11.—The Hawaiian debate in the House began today. Six speeches were made, covering generally the contentions of the resolute opposition to the resolution providing for annexation.

Proceedings began with a mutual withdrawal by Mr. Grosvenor (Republican), of Ohio, and Mr. Swanson (Democrat), of Virginia, of complimentary and injudicious language used by them relative to each other in the heat of the debate Thursday night when the revenue conference report was under consideration. "Pop" Anson, who succeeded Joyce as manager of the New Yorks, was on the bench. Joyce will continue as captain and first baseman. Attendance, 4,300. Score:

R.H.E. Baltimore, 16. Washington, 0. BATTIMORE, June 11.—Dineen essayed to pitch for the Senators today, but he was not successful. Weyhing was substituted in his place, and he was hit hard. Attendance, 1,657. Score:
